	Selecon Acclaim Condensor 24-44° @ 650w
	Selecon Acclaim Fresnel @ 650w
	Selecon Acclaim Plano Convex @ 650w
	PAR 64 @ 1K
	Coolie
Moving Light	
	MAC TW1 @ 1.233kw

General Notes

1. Booms 1- 4 are identical in height and lamps and will be secured to the floor using a small base plate rather than a tank trap. The top of the boom will be attached to a bar above for extra stability.

2. All the floods will potentially be sat on tables, although this will be determined in the space.
