

All the Chandler crossbars should be now marked with their length and position. They should also have an equal number of red painted clamps to be used to ensure the Default setup can be achieved.

The image to the left shows both a red painted fixed 90deg scaff clamp and red tipped steel scaff tube. The red paint denotes these are for use in the Chandler theatre only. The scaff bar should extend BEYOND the side of the scaff clamp. The below image is not a suitable use of a clamp and bar:

Scale: 1:75
Chandler Crossbars Default Setup
