Notes
LX 27
Fast to temp dead then slow to get past bars With LX81 - please note for all shelves OUT - emergency dead is coloured white and green
After LX103
Fast to temp dead then slow to get past bars With LX118
End of "I don't know his name" - LX 127
Fast to temp dead then slow to get past bars - LX 155
After LX 175
LX 201
on fly - past the yellow mark is the ideal overhaul dead -
Don't take brake off on the standby, 1 person flies, 1 person takes off brake on the GO - after lx 316 - at the same time as LX 318 - Make sure nothing is left on top or else it is a NO FLY - listen for this called by Nate
In at the Same time and speed - after LX 390
SAME TIME as shelves out - LX 414
LX 414
3 seconds to fly it in and start to go out - LX 439
LX 470
LX 482

LX 219
