

Our House The Musical

Drinks Mixing

Rory Boyd

Beer

200ml Coke
100ml Apple Juice

Mix until colour looks like beer

Pour 100ml of coke into another cup. Use a milk frother until it looks like a beers head, then pour over glass. It is recommended that this second part is carried out just prior to the prop going on stage.

Whiskey

100ml Apple Juice
1 drop yellow food colouring
1 drop red food colouring

This is a tricky one to make, and you may need to water it down / add more of each to make it look right. Coke can also be added if it doesn't look quite right.
